Any more or any less than this will be a severe disappointment to the user. They are

available for more than a month, and guarantee that you will not be charged for shipping. From The Drylands to the City in World History, John O. Who are we? We are an international study group of people interested in history of science, and technology. Not restricted to any single discipline, we welcome papers from all fields of history. In short, we are interested in all things science- and technology-related from the past and present. The present leaflet gives a short explanation of the aims, structure and membership of the group. History of Science and Technology (HIST) is a major international research network with over 6,500 members worldwide. HIST is based in the School of Social and Political Sciences at the University of Birmingham, UK, with additional nodes in the UK, in

Europe, North America and Australasia. It has been described as "one of the most important social science networks in the world"1 (Nicholson 2010: 15). [...] Please find further information at: History of Agriculture, Food and Rural Studies (HAFRU). HAFRU is an international, open access, interdisciplinary journal History of Science and Technology (HIST) is a major international research network with over 6,500 members worldwide. HIST is based in the School of Social and Political Sciences at the University of Birmingham, UK, with additional nodes in the UK, in Europe, North America and Australasia. It has been described as "one of the most important social science networks in the world"1 (Nicholson 2010: 3da54e8ca3
