Mareew Office Recovery is a free undelete program for Microsoft Word, Excel, PowerPoint, Publisher, Visio, and Outlook. Used by millions of users since its debut in 1995, this software can recover and restore MS Office documents without losing any of the original content within the documents. Mareew Office Recovery instantly detects "missing files" when compared to backup copies and displays them in an interface that

allows the user to preview the documents and restore them as needed. Although complete, the backup copies are easy to restore because they are stored in an alternative folder structure that is easy to restore. However, if you are searching for a particular document that was never backed up, the program will not be able to find it. This limitation can be eliminated by merging the available hard disk space with that of a removable storage device, such as a CompactFlash card. Mareew Office Recovery

benefits from all the strengths of the previous versions of this software, which has been continually updated over the years to make finding documents quicker and easier. It is one of the most sophisticated undelete programs available. And as a completely free software, the program is easy to use, easy to install, and requires no registration. Zeus Office Recovery is the right solution for data recovery of multiple file formats and Office documents in general. It saves and restores

your original files from corrupt, even damaged partitions. The program enables a quick preview of your files before recovery and restores damaged and corrupted files as quickly as possible.

Mareew Office Recovery is a powerful application designed to undelete files created by Word, Excel, Powerpoint, Publisher,

Visio, Project, and presentations created with StarOffice. In case of an accidental file deletion or a hard disk crash, it is very important to recover the deleted data in order to prevent data loss. But recovering deleted data is no easy task. It requires advanced software as well as a sound knowledge of the structure of the various file systems (FAT, NTFS, etc.). Due to the variety of file types, it is nearly impossible to recover deleted data by simply copying the file to your computer. In fact, the

majority of applications do not even have a built-in recovery tool. But with the help of the indestructible and reliable algorithm developed by Mareew, recovering deleted data becomes quick, easy and painless. Mareew provides you with fast, powerful undeletion features. With its advanced algorithm, it can locate and recover most of your deleted files on any hard disk in no time! It undeletes files deleted by using the following functions: ·

Recovers files deleted from within the same folder or from

the specific sub-folder. ·

Recovers files with NTFS table corruption issues. · Undeletes files deleted by using Shell (Run) or Explorer (Windows Explorer).

· Recovers files with a lock code (password or access code)

displayed on them. · Undeletes files deleted by using the "Move to Recycle Bin" function. The following options are available: ·
