What's New In Portable Chatango Image Grabber?

Chatango Image Grabber is a small and intuitive software application that allows you to download any image located in the Chatango portal in a number of formats, such as JPEG, PNG, TIFF, BMP, GIF and WMF. The program has a very simple, straightforward and easy-to-use interface and guides you through the process step by step, without getting in the way of the user. What's more, the software is very tiny and, when in full display mode, does not consume much space on the computer's hard disk. Even the software does not require any installation. No updates are required and you can therefore forget about this program on any computer without installing it. From the user's point of view, it is so simple that even children can learn how to use the application. All you have to do is to specify the name of a user on the Chatango chat server that you want to download an avatar. The next step is to select the location where you want to save the picture, the file name and the output format. The program's interface is almost undetectable and this is clearly reflected in the program's smooth design. In addition, the user's feedback is extremely simple: "Processing..." is displayed when the downloading is in progress, "Done" when it is finished and "Canceled" when you end the download. The most important aspect of the program is the fact that it does not create any registry entries, uses no additional disk space or files on the computer hard disk and stops running after it has been used. Portable Chatango Image Grabber Key Features; Saves the image from the Chatango server and saves it to the specified location. Compatible with Windows platforms. No configuration settings and minimal options. Installs almost entirely self-contained, leaves no traces behind. Very easy to use, especially for children. Converts images from one file format to another. Supports various output formats, including JPEG, PNG, GIF, TIFF, BMP, WMF and more. Supports hotkeys F5 and Ctrl + F5 for going directly to the next photo in the feed. Download Chatango Image Grabber, install and run this software without a guide.
