What's New in the AutoCAD?

Use Markup Assist to quickly add labels, notes, and arrows to a drawing. Now, you can place annotations in a drawing while still on the drawing canvas. (video: 1:07 min.) Text Enhancements: With AutoCAD 2023, you can do your text editing directly in the drawing or on a separate layout. Text changes are reflected in your drawing. (video: 1:07 min.) As a feature in our text wizard, you can now edit text fonts directly in the viewport. You can change color, style, and alignment in the same way as you would when editing text in AutoCAD LT. (video: 1:30 min.) New Action Sets: To support the use of multiple viewports, we've created a set of new action sets. Create a single viewport and then use an Action Set to quickly switch to different views and have the drawing change automatically. (video: 1:15 min.) Simplified Commands: You can now use a set of new commands that combine the functions of existing commands and offer a more direct approach to many common drawing tasks. You can now export a drawing to DWG, DWF, PDF, DXF, or SVG. Enhancements for MDDs: You can use MDDs to quickly organize blocks and workspaces, and place or remove blocks with just a couple of mouse clicks. With Dynamic Input, you can now select a block in an MDD from another viewport. The block appears in the current viewport, ready to be dragged or selected. You can now display multiple MDDs in a layout. You can now edit text fonts in an MDD. You can also edit its shape and color directly in the viewport. Drawings: The LayOut tool has a new "H" option for breaking layouts into horizontal pages. The 2D Curve Editor now supports the use of bezier curves, with a variety of options for controlling the layout of the curve. You can also draw spline curves now. You can now create an MDD when drawing a new file. Toolbar: We've improved the AutoCAD toolbar to make it more useful. The draw toolbar now displays tool options available in all your drawing sessions. You can now choose to display tool options by category or by tool.
